Promoting and protecting the health of the public and the environment

DEPARTMENT OF HEALTH AND ENVIRONMENTAL CONTROL

NOTICE OF GENERAL PUBLIC INTEREST

The Department of Health and Environmental Control has received applications from Dominion Carolina Gas Transmission, LLC (“Dominion Carolina”) for two (2) proposed pipeline projects.

Dominion Carolina is proposing to construct/modify and operate the Transco to Charleston Project, located in Aiken, Charleston, Dillon, Dorchester, Greenwood, Laurens, Newberry, and Spartanburg counties. The proposed project will include approximately 60 miles of pipeline, including two new natural gas transmission pipelines, upgrades to the existing Moore Compressor Station, modifications to the Southern Compressor Station, modifications to the Charleston Town Border Station, and the addition of a new Dorchester Compressor Station.

Dominion Carolina is also proposing to build a natural gas pipeline in Richland and Calhoun counties to transport natural gas to the International Paper Eastover facility. The proposed pipeline will be approximately 29 miles long.

The Department anticipates additional permit applications for the two proposed projects will be forthcoming. While some applications will not have a formal public comment period, the Department welcomes comments and questions at any time. If you would like additional information about the proposed projects and related permit applications, including a list of staff to contact, please visit www.scdhec.gov/dominionpipeline.
